

INSURGENCY RUMORS HEARD IN VERMONT

Indorsement of Tariff by Approaching Convention Reported in Doubt.

F. D. PROCTOR AIMS AT SENATORSHIP

Green Mountain State gubernatorial Situation Complicated by Aspirations of Senator's Son.

Reports reaching Washington from reliable quarters, are that insurgency is rife in Vermont.

The Republican State convention will be held June 20, and there has been serious question whether the tariff law will be indorsed. It is settled that the Administration will be given an indorsement, and the tariff law will not be assailed. But until recently there has been much nervousness about it.

It appears, from advice here, that the insurgent spirit in Vermont is of a piece with that in New England, which caused the election of Foss in Massachusetts, and which compelled the retirement of Senator Hale in Maine. The old-time politicians do not try to explain it. They know that it exists and occasionally admit it.

Eye on Senatorship.

The Vermont situation is peculiarly interesting from the fact that Fletcher D. Proctor, son of the late Senator, a well-known figure in Washington for many years, is bent on ascending to the Senatorship. It is declared that Proctor is already laying plans to capture the appointment to the Senate if death should end the career of Senator Foss. Senator Foss is well along in years, but apparently healthy. It would seem that the prospects of being his successor in the Senate based on his expectation of life were not very brilliant.

It appears that since the death of his father, Fletcher D. Proctor, who was formerly governor, has been trying to keep together the machine which his father controlled. On the death of Senator Foss, Proctor was elected without the opposition of the Proctor element. It was the general understanding that when Foss retired from the Senate, Fletcher D. Proctor would step in.

Agreement Remembered.

The Proctor element has not forgotten this understanding. Fletcher D. Proctor intends to come to the Senate to succeed his father in due time. Four candidates are in the field now for the governorship and the ambitions of Fletcher D. Proctor have a bearing on the situation to this extent. The candidate for governor who is successful must pledge himself to appoint Fletcher D. Proctor to the Senate if Senator Foss drops out of that body and causes a vacancy. It is declared here that any candidate who falls in this respect is sure of defeat. The friends of Senator Foss do not like the attitude of Mr. Proctor, but they are not in a position to object. So far as the re-election of Senator Foss is concerned, there is no question about it.

PARIS TO BE HOME OF FRANK J. GOULD

Will Renounce Land of Birth in Effort to Win Turf Honors.

PARIS, June 11.—Renouncing America as a place of residence and declaring to his intimate friends that Paris will be his future home, Frank Jay Gould, sixth of Jay Gould's children, has surprised his friends here.

Two other plans, according to Mr. Gould, will be carried out by him immediately. One is the effort to become a great playwright and manager of theatrical houses, next he intends to wrest from William K. Vanderbilt his supremacy on the French turf.

At the elaborate supper in his rooms at the Rue Pierre Charbon, where Miss Edith Kelly is always hostess, few things are ever discussed other than Mr. Gould's new plans and ambitions.

Miss Kelly is a former member of the "Havana" theatrical company, which recently had a run at the Casino Theater in New York.

Neither of them will either deny or affirm the report that they are married; but, in ordering goods from the Paris store, Miss Kelly, it is declared, has them charged to "Mrs. Frank Gould."

That Frank Gould intends to become an expatriate is of the greatest interest to those who have followed the career of the six Gould children.

Gould has opened negotiations for the lease of a theater on the Boulevard during the coming season, so confident is he of success. Shortly his first play prove a success in Paris, Gould will immediately arrange for its presentation in New York and has written a New York manager to that effect.

CARRIED BY THUMB.

CANON CITY, Col., June 11.—Becoming entangled in the running gear of an aerial tram, Merle Kissenger was carried 100 feet suspended by his thumb twenty-five feet in the air. Gradually the thumb was torn from the hand and the boy fell to the ground, suffering two broken ribs and other internal injuries.

He was unconscious when picked up and will probably die.

POPE RECEIVES KANSANS.

ROME, June 11.—Sixty American pilgrims, led by the Rt. Rev. John J. Hennessy, bishop of Wichita, Kan., have been received by the Pope. The bishop presented the Pope's pence. The pontiff addressed the pilgrims briefly and in cordial terms.

HAMILTON DELAYS INTER-CITY FLIGHT

Heavy Gale and Rain Postpones New York-Philadelphia Trip.

NEW YORK, June 11.—A combination of a southeast gale and heavy rain interfered today with the proposed flight of Charles K. Hamilton in his airplane from this city to Philadelphia and return, and the attempt was postponed until Monday.

Hamilton has his machine under cover at Governor's Island, and will tune it up late today if the weather permits. He may make a series of short flights over the upper bay tomorrow.

He has equipped his machine with a new seven-foot long propeller, which is expected to develop more thrust than any he has used. He declared today that if his plans work out he will cover the ninety miles separating this city and Philadelphia in less than an hour and a half.

ABERNATHY IN TAXI MEETS HIS TWO BOYS

Broncho Riding Youngsters Expected to Reach New York This Afternoon.

TRENTON, N. J., June 11.—The Abernathy boys, riding on broncos from Oklahoma City to New York city to meet Colonel Roosevelt, arrived here at 8 o'clock last evening, and remained over night at the Trenton House.

They were met by their father, United States Marshal John R. Abernathy, of Oklahoma City, three miles from Trenton, he having taken a taxi cab to meet his boys, whom he had not seen in more than sixty days. Because of the weariness of the boys, the entertainment that had been planned for them by the Elks was abandoned.

The boys left this city at 5:45 o'clock today, expecting to reach New York at 4 o'clock this afternoon.

DEMOCRAT HOPES TO WIN MARYLAND

Representative Talbott Predicts Success in Four Congressional Districts.

Representative J. Fred C. Talbott, of Maryland, has made a careful study of the political situation in his State and is of the opinion that Maryland will send four Democrats to the next Congress, and perhaps five. There are only three in the delegation now.

"If the tariff is made the issue," said Mr. Talbott, "we can elect four of our candidates for Congress. We can hold the First, Second, and Fourth districts and can capture the Third. As for the Fifth and Sixth, I am not prepared to speak at this time."

"The Democrats have never had a better issue upon which to make a campaign than the cost of living. It can be demonstrated beyond doubt that the tariff is responsible for most of our high cost of living. The discontent which we see in other sections of the country is just as widespread in Maryland, and it is only necessary for the party to take advantage of conditions thrust upon us by the stand-patters of the Republican party."

BRADFORD ATTACKS VACCINATION LAW

Repeal of Compulsory Act Urged Before Business Men's Body.

"It is an insult to common sense," declared Harry E. Bradford, president of the Anti-Compulsory Vaccination Society of the District, yesterday afternoon before the law and legislation committee of the Chamber of Commerce, in an endeavor to have that body urge the repeal of the law which makes vaccination compulsory in the District.

Mr. Bradford for two hours discoursed upon vaccination in its every form from its discovery to the small-pox epidemic in Washington two years ago. He quoted noted physicians of the past century who antagonized vaccination. Presenting an array of facts and figures to substantiate his theory that vaccination is more dangerous than the white plague, Mr. Bradford stated that five times as many persons die from vaccination as from small-pox and was most severe in his attack upon the former, alluding to it as not only a "filthy fad" but a "disease-grafting industry."

LOSSES OF COAL WHILE IN STORAGE

The Illinois tests of Prof. S. W. Parr and W. F. Wheeler seem to have shown that the chief losses in the storage of large quantities of coal are due to breaking up into dust and to fires from spontaneous combustion.

The maximum loss from weathering was not more than 35 per cent in Illinois coal stored a year.

Other experiments have differed and have reported a loss in calorific power from weathering as high as 50 per cent.
